NOTICE TO HIKE LEADERS: Over the past few months there have been some complaints from both members and guests about hikes not conforming to the description published in the bulletin. If your hike is listed at 3 MPH, try to keep it at a moderate speed. If it is listed as a pavement hike, try not to wade streams. Do not start the hike before the time as listed. Hike leaders should take care when registering the hike with the pathfinder, and make sure that it currently conveys the details they want, and is not just a description carried over from a previous hike. Attention to these details will help to insure that our hikes are enjoyable for all participants.
